

## SUMMARY

Flutter Developer with hands-on experience building cross-platform mobile applications for Android and iOS. Proficient in Dart, state management (BLoC, Provider, GetX), Firebase integrations, REST APIs, and Clean Architecture. Experienced across diverse domains including real estate, ride-hailing, healthcare, and e-learning. Certified Scrum Master with a strong foundation in Agile methodologies, sprint planning, and collaborative delivery. Passionate about crafting high-performance, user-centric applications with clean, maintainable code.

## PROFESSIONAL EXPERIENCE

ENCODERBYTES Pvt Ltd (Flutter Developer – iT Park Peshawar)

MAR 2026 - PRESENT

- **Gyneae Guide (Gynecologist Health & Information App)** – Play Store Link

- Developed a comprehensive gynecology information and health-tracking application offering users detailed, easy-to-understand guidance on women's reproductive health. Implemented multiple built-in calculators – including pregnancy due date, ovulation, and menstrual cycle trackers – to help users accurately monitor key health metrics. Structured organized content covering conditions, symptoms, and care guidance to make medical information accessible and easy to navigate. Focused on intuitive UI/UX design and smooth navigation to deliver a reliable, user-friendly health reference and tracking experience.

TRI BYTE SOLUTION (Flutter Developer – iT Park Peshawar)

AUG 2025 - SEP 2025

- **Tobacco Plant Cultivation Process App**

- Developed an application detailing every phase of the tobacco plant cultivation process, guiding users from seed sowing through harvesting and curing. Integrated Google Gemini to provide users with AI-powered guidance and instant answers to cultivation-related queries. Implemented an AI model enabling users to capture a photo of a tobacco leaf, which the model analyzes to detect diseases and deliver an instant diagnostic result. Focused on intuitive UI/UX design and smooth navigation to deliver a reliable, easy-to-use cultivation guidance and crop-health detection tool.

- **Solar Panel Anomaly Detection System [Flutter + Machine Learning]**

- The solar panel anomaly detection system identifies faults such as cracks, dust, bird droppings, and other irregularities. It leverages machine learning models to analyze images and detect performance issues in real time. The system helps maintain efficiency by providing early warnings for potential defects. This ensures improved energy output, reduced maintenance costs, and longer panel lifespan.

CITY UNIVERSITY (Summer Internship Program – Peshawar)

JULY 2025 - AUG 2025

- **Covid-19 Mobile Application**

- Built a COVID-19 tracking app that shows real-time updates on cases, recoveries, and vaccinations. Allows users to check local and global statistics with simple charts and notifications. Includes tips, symptom tracking, and health resources to help users stay safe and informed.

- **Liver Disease Detection [Flutter + Machine Learning]**

- Developed a liver disease detection app using Flutter and TensorFlow Lite. Enabled users to input medical data and receive real-time health predictions. Achieved high prediction accuracy of approximately 90% for reliable results. Focused on intuitive UI/UX design for a seamless and user-friendly experience.

## SKILLS

- **Mobile Development:** Flutter, Dart, Clean Architecture (MVVM), Dependency Injection
- **State Management & Data Handling:** GetX, Provider, BLoC
- **Forms & Validation:** Flutter Form Builder, Custom Validators
- **Authentication & Authorization:** Firebase Auth, Google Sign-In, OAuth
- **Payments:** Stripe Payment Gateway
- **Cloud & Storage Integrations:** Firebase (Firestore, Realtime DB, Storage), Google Drive API
- **Analytics & Monitoring:** Firebase Analytics, Google Analytics

- **Real-Time Communication:** Firebase Realtime Database
- **Messaging & Notifications:** Firebase Cloud Messaging (FCM), Twilio
- **API Development & Testing:** REST APIs, GraphQL, Postman
- **Task Scheduling & Background Services:** WorkManager, Push Notifications Scheduling
- **Local Data Storage:** SQLite, Hive, SharedPreferences
- **CI/CD & Build Automation:** Fastlane, Codemagic, GitHub Actions
- **Deployment Platforms:** Google Play Store, Apple App Store
- **Methodologies:** Agile, Scrum
- **Tools & Platforms:** Git, GitHub, Postman, Jira, VS Code, Android Studio, Xcode

## EDUCATION

---

- **Bachelor in Software Engineering (BS SE)** 2021 - 2025  
City University Of Science and Technology, Peshawar, CGPA: 3.26/4.00

## CERTIFICATIONS

---

- **Soft Skills** July - 2025  
Pakistan Software Export Board (PSEB)
- **Advanced Flutter UI and State Management** June - 2026  
Coursera [Packt]
- **Agile Project Management** April - 2025  
HP LIFE | HP FOUNDATION
- **Certified Scrum Master** December - 2024  
Scrum Alliance
- **Certified Scrum Master (NAVTTTC Certified)** August - 2024  
Corvit System Peshawar
- **Flutter Masterclass (Dart, APIs, Firebase & More)** May - 2024  
Udemy
- **Flutter Mobile Application Development** January - 2024  
Saylani Mass IT Training Program, Peshawar.

## LEADERSHIP EXPERIENCE

---

- **Volunteer** 2023 - 2024  
GDSC Team Member City University of Science and Technology, Peshawar.
